

At Catholic Health, we want you to look your best.

Even from the inside.

That's because your physician relies on our specialized team of radiologists and our advanced technologies to capture images of your hip, knee, heart, brain and more with the highest level of precision and clarity possible today.

Because seeing you clearly is the foundation upon which your doctor can determine the best treatment plan for you. And knowing when to start could make all the difference.

Your health depends on it and your doctor depends on us.

Some test results available the same day.

Call (855) 247-4500 or visit chsli.org.

Urgent Care Offices

For when you need care after hours

We're glad you've chosen Catholic Health Physician Partners to manage your health needs. Having a dedicated primary care provider (PCP) is one of the most positive things you can do to manage your health. Your PCP is your personal physician who can help monitor and manage every aspect of your health care needs.

But what if you have a sudden need for care or medical attention after hours? For those occasions, Catholic Health has partnered with ProHEALTH, which has urgent care offices throughout Long Island and Queens.

ProHEALTH is your convenient walk-in resource for non-emergency issues such as sore throat, body aches, rash, stomach pain or minor cuts. If your Catholic Health doctor is not immediately available, our partners at ProHEALTH have you covered.
